

Masport®

LAWN & GARDEN RANGE 2019

Proudly designed and engineered in New Zealand and sold all around the world.

THE MASPORT ADVANTAGE

Briggs and Stratton easy starting engine systems available

1/ MASPORT SMARTCHUTE®

Mow without catcher, and avoid messy grass clumps. The Masport patented Smartchute® will side discharge clippings in a 'sidethrow' action as you mow.

CHIPPERCHUTE

Allows your mower to shred branches up to 1 3/8" in diameter and turn them into mulch. As branches are chipped they are fed back into the catcher so you can put the mulch on your compost or garden.

IN START

No priming, no pulling, no choking...just charge it, clip it, mow! The smarter way to start, simply clip in the battery and you're ready to mow!

WASH PORT

Hose fitting point on the housing to clean the housing while the mower engine is running, increasing the life of the deck and improving cutting efficiency.

2/ ADJUSTABLE DUAL BEARING WHEELS

Masport's ball bearing wheels make the mower easy to push and with a threaded axle and nut, the wheels can easily be adjusted if they become loose after significant use.

3/ HANDLE LIFT SYSTEM

Handle lift on some models makes for easy catcher access and storage.

4/ ZONE START

The conveniently positioned starter cord eliminates the need to bend all the way down to pull-start, reducing the risk of back strain.

5/CUT HEIGHTS

Masport lawnmowers have a range of cut heights from approximately 1" to 4" and come with a single point one touch height adjuster.

6/ ERGO ADJUSTABLE CAMLOCKS

Multiple handle height adjustment to combat back strain. Easy fold down for storage.

MULCH & CATCH

Naturally recycle the grass by recutting it and feeding it back into your lawn.

7/ MASPORT DUAL MOWZONE®

With the blade coverage extending beyond the wheel width on both sides, the mower can cut closer to walls, kerbs and fences, giving a cleaner finish to your lawn.

MASPORT 2'n1

Combination of **Catch** and **Mulch** options on these mowers.

MASPORT 3'n1

These mowers have a combination of **catch**, **mulch** & **rear OR side-discharge** options.

MASPORT 4'n1

These mowers have a combination of **catch**, **mulch**, **rear OR side-discharge** & **chip** options.

THE MASPORT ADVANTAGE

HANDLE OPTIONS

CAMLOCKS

Allows for quick & easy fold down of the handle for storage or transportation of your mower.

NO GRIP

Ergonomic upturned handle.

TWO PIECE

Stub handle.

ERGO LOCKS

Allows you to set the handle to the height most suitable to you, as well as easy fold down.

SOFT GRIP

Impact resistant soft grip for added comfort.

ONE PIECE

Reinforced lower 'U' handle.

BLADE SYSTEM OPTIONS

BAR BLADE

One piece bar blade cuts efficiently whether catching or mulching. These are fitted as standard for all USA models.

BAR BLADE WITH CHIPPER

The additional chipper blade allows your mower to chip branches up to 1 3/8" into garden mulch, when fed through the mower via the Chipperchute.

QUADCUT®

4 BLADE DISC CUTTING SYSTEM

A specially designed four blade disc system, great for catching due to increased airflow.

21" MULCHING BLADE ACCESSORY

For superior mulching performance.

NEW 21" HIGH LIFT BAR BLADE

For improved catching under certain conditions.

HANDLE LIFT SYSTEM

The Handle Lift System allows you to quickly and easily access the catcher (or Smartchute® system). Simply step on the foot pedal and lift the handle, it's that easy! Once the handle is returned to the operating position it will lock in firmly providing responsive handling. The Handle Lift System reduces the storage space required and facilitates maintenance and cleaning.

ERGO CAMLOCKS

Masport's Ergo camlocks allow for an easily adjustable handle position. You can lock the handle in a position that specifically suits you for mowing - making the whole experience much more comfortable. Ergo camlocks also allow the handle to fold down for easy storage when not in use.

When combined with Masport's Handle Lift System you have the ultimate in comfort and ease of use when it comes to mowing the lawns.

THE MASPORT ADVANTAGE

CATCHER OPTIONS

FABRIC CATCHER
for 18" cut width lawnmowers

Light weight fabric catcher on a sturdy steel frame. Well vented for excellent catching performance. Will hold 1.2 bushels on 350ST machines.

FABRIC CATCHER
for 21" cut width lawnmowers

Large light weight fabric catcher on a sturdy steel frame. Well vented for excellent catching performance. Will hold 2 bushels.

AERO CATCHER
for 21" cut width lawnmowers

A large and stylish combination plastic & fabric catcher which can hold 2 bushels of grass clippings. This catcher is well vented to provide superior catching performance.

COMMERCIAL CATCHER
for 21" cut width lawnmowers

A larger double lined fabric catcher with cover that holds 2.3 bushels of grass clippings. This fabric catcher is well vented to maintain airflow and performance and also combines a cover which reduces dust for operator comfort.

CONSUMER PRODUCT WARRANTY OPTIONS

Conditions apply. For full warranty conditions please refer to the Masport warranty card included with your mower.

LIMITED PRODUCT WARRANTY*

**4 YEAR CONSUMER
90 DAY COMMERCIAL**

* The Limited Product Warranty does not apply to the engine you receive with the mower.

LIMITED ENGINE WARRANTY

850 ENGINE WARRANTY*

**2 YEAR CONSUMER
1 YEAR COMMERCIAL**

*On the commercial Series 850 engine only

SELF PROPELLED

Let the mower do the work. These models are fitted with a self drive system. All you need to do is squeeze the self propelled bail to the handle to propel the mower forward.

SYNCHRO CLUTCH TRANSMISSION

Progressive clutch low force required to maintain engagement.
(Single speed gearbox pictured)

GT AGILITY PRO 3 SPEED COMMERCIAL TRANSMISSION

A commercial grade, all metal, constant mesh, oil lubricated, cone clutch gearbox featuring precision bearings to the shafts. Designed for commercial applications, it provides reliability and durability.

MC600 SEMI COMMERCIAL CONE CLUTCH TRANSMISSION

Variable speed, smooth start, aluminium lower housing for improved wear resistance.

CONE CLUTCH 4002 TRANSMISSION

Variable speed. Heavy duty gearbox with controlled progressive cone clutch.

DURABILITY

Durable steel gears and pinions for long life.

SMOOTH CORNERING

Pinions and Pawls to act as a differential, allowing cornering without ripping or tearing up the lawn.

SMARTCHUTE®

Mow without the catcher and avoid messy grass clumps. The Smartchute® will side discharge clippings in a 'sidethrow' action as you mow.

CHIPPERCHUTE

The Masport Chipperchute is an innovative development in lawn mowing that means your mower can do more than cut grass. The Chipperchute actually chips branches up to 1 3/8" in diameter using the additional chipper blade and turns them into useful mulch. As branches are chipped the chips are fed into the catcher so you can put the mulch into your compost or garden.

REEL MOWERS RANGE
 This range of mowers feature a centrifugal clutch allowing independent control of the cutting reel and a clutch operated powerful self drive rear roller. Add to this the ability to achieve very low cutting heights for manicured lawns with 'Wimbledon Stripe' effect from the rear roller and the result is nothing short of an absolutely professional finish.

CONTRACTOR

These professional mowers are designed for a heavy duty workload or commercial use. With each feature we aim to make the mowing experience more satisfying for the user as well as building a robust machine that will last.

PROFESSIONAL MOWERS CONTRACTOR SERIES

1 HANDLE SYSTEM
The heavy duty handle system maintains a very strong connection to the deck of the mower as well as allowing an adjustable handle position.

5 OTHER ROBUST COMPONENTS
• Heavy duty knobs
• Heavier control cables

2 11 HEIGHT ADJUSTMENTS
A robust height lever controls the cutting height of the mower. The lever fits precisely and easily into any of the 11 height adjustments on the steel quadrant mounted to the chassis.

3 ENGINE OPTIONS
Briggs & Stratton OHV Series 850EX 190cc ReadyStart™ IC engine or Honda GXV160 160cc engine

4 PROFESSIONAL WHEELS
Aluminium diecast wheels with a heavy duty rubber tyre.

6 GEARBOX
Change speeds on the go with the GT MG512 commercial cone clutch, three speed gearbox.
1st - 3.74km/h - 2.3 mph
2nd - 5.11km/h - 3.2 mph
3rd - 6.63km/h - 4.1 mph

7 ROBUST AXLE SYSTEM
Masport has designed a robust axle system made to withstand heavy usage.

8 CATCHER DESIGN
Double lined fabric catcher with cover holds 2.3 bushels. The fabric aids in airflow, maintaining catcher performance and, combined with the cover design, reduces dust updraft for the operator.

12 CUT HEIGHTS
Low cut version
13-63mm - 1/2"-21/2"
High cut version
28-115mm - 11/8"-41/2"

9 BUMPER HOUSING PROTECTION
Integrated design to protect the mower during frequent, heavy duty workload.

10 WARRANTY DOMESTIC
• 5 Years mower parts and gearbox
• Engine as per manufacturer's warranty
WARRANTY COMMERCIAL
• 1 Year mower and gearbox
• Plus parts only for a further 180 days
• Engine as per manufacturer's warranty

11 REAR DISCHARGE CHUTE
With the rear discharge chute the mower can be used effectively without a catcher or mulching plug. It is designed to work with Masport's unique 'high-arch' housing and blade systems which generate great airflow. The grass is spread across the full width of the chute and directed downward.

OUTDOOR POWER EQUIPMENT

HOME GARDENER TILLER

450907

ABOUT

For over 20 years gardeners enjoyed the lightweight versatility of the Masport Home Gardener tiller. It has been rebuilt to the original specifications so that a new generation of gardeners can enjoy the pleasure of backyard flower and vegetable growing.

FEATURES

- 127cc Briggs & Stratton 3½ HP IC horizontal shaft engine
- Sturdy shaft drive with worm gearbox transmission
- Lightweight 81 lbs, this allows for easy handling and storage
- 17" tilling width standard
- 11" tilling width without outside tines
- Simple controls and rugged construction
- Garden aerator, lawn edger and cleaning brush accessories available as optional extras

Optional extras:

PETROL EDGER

550913

ABOUT

This machine is ideal for the manicured straight edged lawn finish. The Masport petrol edger helps you achieve neat and tidy lawn and path edges with ease. With double front wheels and a wide stance design the edger is very stable, making it easy to use and allowing the operator to be more precise with their edging.

FEATURES

- Briggs & Stratton 127cc 3½ HP horizontal shaft IC engine
- 9½" Bar blade
- Ten position height control
- Vertical cutting range: 1½" above ground to 2½" below ground
- 6" front and 8" rear ball bearing wheels
- Fold down handles
- Weight: 62 lbs

Optional Chipper side chute
(Part No. 436937)

Optional grate
(Part No. 929304)

CHIPPER SHREDDER

The Masport garden shredder is ideal for the successful recycling of organic garden waste. It operates in two ways:

ABOUT

Shredding - Utilizes a horizontal flail arrangement with a total of 9 flail blades, reducing garden foliage to a fine mulch

Chipping - Breaks down thicker branches up to 2" creating a fine mulch that is perfect for composting.

ENGINE

There are 4 engine options available:
B&S 163cc 5HP IC | Honda GX 160cc 5.5HP
B&S 205cc 6HP IC | Honda GC 160cc 5HP

FEATURES

- Reduces material to at least 20% of its original volume
- Weeds are reduced to a fine mulch so they can't re-grow
- Branches up to 2" can be fed through the side chipper tube
- Larger branches up to 2½" can be fed through the optional chipper side chute, if fitted
- Choice of two grates. Standard model for fine mulch, the other (an optional extra) is designed to avoid clogging with damp leaves and foliage

8 TONNE LOG SPLITTER

453003

ABOUT

The new Masport log splitter is fast and efficient, utilising the latest in kinetic technology. The electric motor spins twin 9kg (19.8lb) flywheels at 450rpm which store the kinetic energy generated, then release it in a rapid burst of energy through a rack and pinion system once the operator engages the levers. This pushes the log in an extremely fast motion onto the splitting wedge, quickly splitting it in less than 2 seconds, before quickly resetting, ready to split the next log. This is considerably faster when compared to a traditional hydraulic log splitter which may have a 12 second or longer cycle time, making the Masport Kinetic log splitter at least 6 times more productive, giving you more time to enjoy other interests.

FEATURES

- 2000W, 110V motor
- Simple to operate and maintain
- Electric power means less noise and no fumes
- Can also be used indoors or in covered areas
- 350mm (13.75") max log diameter
